

Region A Waste Collection Calendar City of Neyagawa

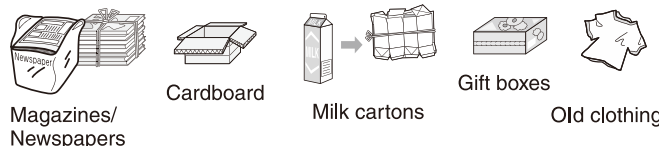

* Please follow the separation rules and place all your garbage out **by 9:00 a.m.** on collection days.

April 2025
-March 2026

Paper/Cloth

Every **Monday**

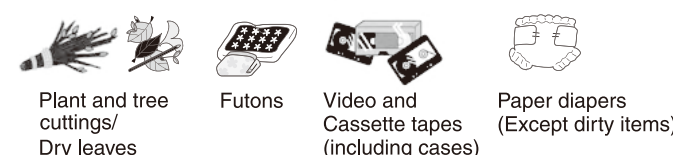

- Put out material other than old clothing on the same day as combustible waste.
- Place paper and cloth into separate transparent plastic bags or tie the paper or cloth in bundles separately with string.
- Large amounts of cardboard used during moving, etc. must be treated as special "gomi" (waste).
- Put out **paper with aluminum coatings, scented paper and soiled paper** on the same day as combustible waste.

◎ Put this waste out for collection by local resource collection groups as far as possible.

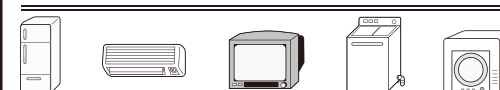

Combustible waste

Every **Tuesday and Friday**

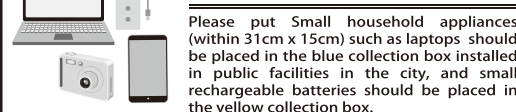

- Tie the garbage bags tightly.
- Green waste, futons and rugs, etc. should be put out on Fridays if possible. (Up to 2 or 3 bags of 45L plastic bags)

Electric appliances subject to the Recycling Law

- As much as possible, please ask the electrical shop to take away the old electrical appliance/s. (If you want to dispose of it, please put it in temporary garbage after purchasing a recycling ticket.)

Use small appliances and used small rechargeable batteries should be placed in a dedicated collection box.

- Desktop PCs are not collected in the city. Please contact the manufacturer etc. directly.

Cans/Bottles

Every 2nd and 4th **Wednesday**

- Please rinse out cans and bottles with water.
- Please remove lids from bottles.
- Returnable bottles (empty bottles) should be returned to stores

* **Cosmetics bottles, cups and heat-proof glass are incombustible waste.**

Plastic waste/PET Bottles

Every **Thursday**

- This applies to items with these symbols on them.
- You cannot put out products made of plastic.

- Plastic waste and PET bottles can be put out in the same bag.

* **Please remove any caps and labels.**

* **Rinse off any contamination. If rinsing does not make the items clean, put them out on the same day as combustible waste.**

Incombustible waste

Every 1st, 3rd and 5th **Wednesday**

- Please place batteries and lighters in separate transparent bags.

- Nonflammable garbage is up to 2 pieces of 45 liter garbage bag. When exceeding it becomes temporary garbage.
- A stove with an ignition device, a gas stove, a cassette stove, etc. are temporary garbage because there is a possibility of ignition at the time of collection.
- For breakables, glass, razor blades, and nails, please label these materials as "ケン" (kiken or dangerous) or "フレモノ" (waremono or breakable).

- * Drawers and furniture will be handled as large size waste.
- * Waste garbage exceeding 40 cm x 100 cm x 40 cm is regarded as large-sized waste.
- * Items weighing more than 10kg will be handled as special "gomi" waste.

Special "gomi" waste (Charged)

- Large size waste/waste due to moving house/large amounts of waste.
- Please be sure to remove any oil or batteries.
- Except Saturdays, Sundays and New Years holidays (12/31, 1/1 - 1/3).

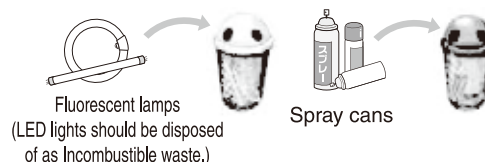

Special pickup (reservations required) ☎ **868-5374**
Reception hours: 8:30 a.m. - 5:00 p.m.

- You need to be present when the waste is to be picked up.
- We will not enter your home to remove the waste.

Drop off (no reservations required) ☎ **821-4039**
Reception hours: 9:00 a.m. - 4:00 p.m.

- The sorted used paper / used clothes are free of charge.
- You will need some personal identification (such as a driver's licence).
- Bringing in vehicles over 2 tonnes is forbidden.

Fluorescent lamps/Spray cans

- They will not be accepted at normal waste stations, so leave them at your nearest special site. (You can drop off anytime.)
- Only for fluorescent lamps and cans used in homes.

* **Use up the contents of the spray can, please put out without making a hole.**

Things that can not be collected / processed in the city (example)

Things that have a proper recycling route (desktop personal computer, piano, digestive equipment, car battery etc), thinner, kerosene, earth, concrete blocks etc can not be processed in the city. Please consult your dealer, manufacturer or specialist.

Squeezing Tight The Kitchen Garbage Once More CAMPAIGN

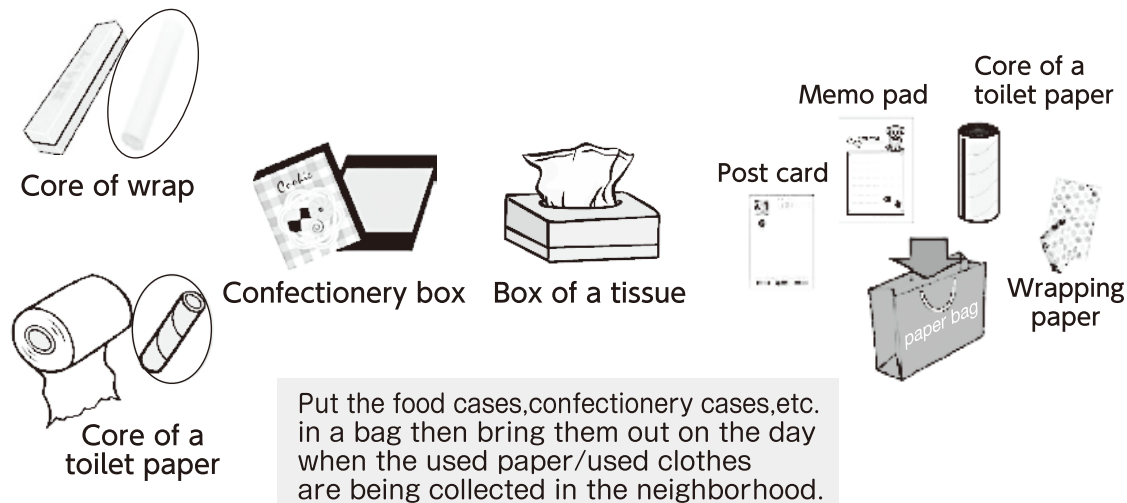

The amount of garbage[bulk]is not how it (looks),but it's how it weighs.

About 80% of the garbage is moisture.

Miscellaneous Paper Rescue Operation

About 12.6% of combustible waste are kind of paper that can be recycled

Separation support (Combustible waste section)

~ Putting out tree cuttings and dead leaves ~

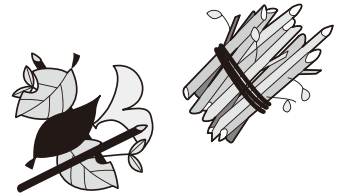

○ Pruned branches, Dead leaves Combustible waste

(Explanation)

A limit of **two 45L plastic bags** of this type of waste may be put out at **any one time**. Tie up the bags securely with string or similar before putting them out.

If you have more than this amount to put out, it will be treated as **special waste** (a charge will be incurred).

* Branches can be up to 5cm thick and 1m long. Any items larger than this cannot be processed by the City, so you will need to ask a specialist business instead.

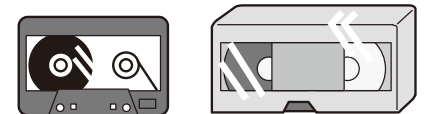

~ Video and cassette tape? ~

○ Video and cassette tapes (including cases) Combustible waste

(Explanation)

If handled as incombustible waste, the tape inside the cassette can become tangled in the crusher which can result in problems, so video cassette tapes should be treated as combustible waste.

~ Bedding? ~

○ Beds Special "gomi" waste

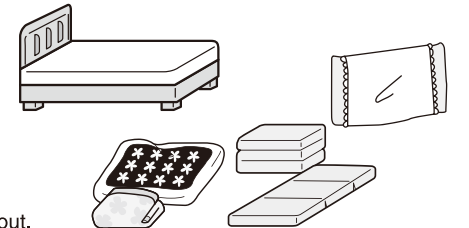

○ Mattresses (without springs) Combustible waste

○ Mattresses (with springs) Special "gomi" waste

○ Pillows, Gel mattresses (constant temperature, cooling) Combustible waste

○ Futons (covers, bases), Blankets Combustible waste

* Wrap them tightly and tie them up with string or similar before putting them out. (Up to 2 for once)

Sorting support (small household appliances and small rechargeable batteries)

~ Collection box of small household appliances and small rechargeable batteries ~

When discarding small household appliances, put them in the blue exclusive collection box installed in public facilities in the city, and put small rechargeable batteries in the yellow exclusive collection box.

[What can be put in a box]

○ Small home appliances ... Small home appliances within 31cm wide x 15cm long

Mobile phones, smart phones, telephones, fax machines, radios, laptop computers, digital cameras, music players, hair dryers, electric shaving, game machines, calculators, etc.

○ Small rechargeable battery

Nicad batteries, nickel hydride batteries, lithium-ion batteries (mobile batteries and heated electric cigarettes are also included)

※ Out of the above, other than mobile phones, smartphones, and laptop computers, you can put them out in incombustible garbage. (Please contact your dealer or manufacturer for mobile phones, smartphones, laptops.)

※ Desktop PCs can not be collected in the city. Please contact your dealer or manufacturer.

[Box location]

Main building of city hall, Health and Welfare Center, Each city station (Excluding the West), Industry Promotion Center, Civic hall, City Gymnasium, Child-raising refreshment house, Each community center (including Minami Community Center annex), Esupoaru, Public health center, AEON MALL Shijonawate (Small household appliances only).

Separation support (Incombustible waste section)

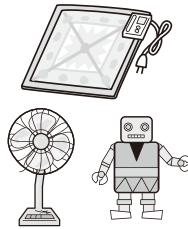

～ What is incombustible waste? ～

Waste which contains materials such as metal which will not burn is termed 'incombustible waste'. Furthermore, items which partially consist of materials which can be burned are also 'incombustible waste'.

* Waste garbage exceeding 40 cm x 100 cm x 40 cm is regarded as large-sized waste.

<Examples>

- Drying racks, Fans, CDs/DVDs, Cork boards, Plastic toys, etc.
- Electric carpet, Electric blankets
- ★Rugs, Carpets..... Combustible waste

～ CDs and DVDs? ～

- CDs, DVDs (including cases) Incombustible waste

(Explanation)

CDs and DVDs are made from plastic, but put them out together with their covers on the same days as incombustible waste.

(Waste plastic and PET bottles are limited to plastics which are subject to the Containers and Packaging Recycling Law.)

～ Plant pots and planter boxes? ～

- Plant pots..... Incombustible waste
- Planter boxes..... Incombustible waste
- Seedling pots..... Plastic waste/PET Bottles
- * Items which cannot be cleaned should be put out on the same days as combustible waste.
- Soil Items difficult to process

(Explanation)

Planter boxes should be put out on the same day as incombustible waste, regardless of what material they are made from. Soil cannot be collected by Neyagawa City, so please arrange for a specialist business or store to collect it.

Note ☆ Spray cans can be dropped off at your nearest special site. Batteries and Lighters should be packaged separately!

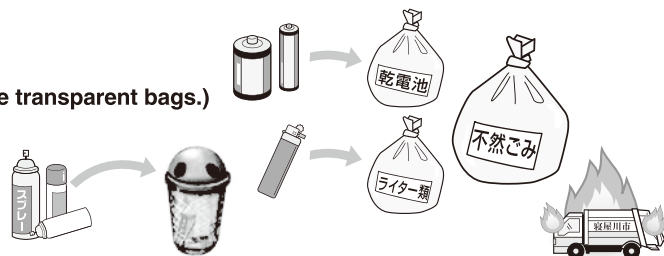

If batteries, any lighters, spray cans are mixed in the other garbage bags, it may cause a fire accident of the packer truck. It is up to individuals to take the necessary care to prevent accidents from happening. We hope that you will understand this and give your full cooperation to preventing such accidents.

<How to put out garbage>

- Lighters, Batteries..... Incombustible waste
(Please put the batteries and lighters in separate transparent bags.)

- Spray cans Collection at the special site

* Please check our website or ask at the Clean Center for the location of your nearest special site.

Separation support (Waste plastic and PET bottle section)

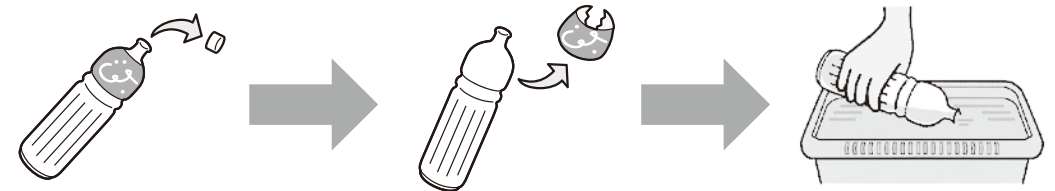

～ What are plastic containers and packaging (waste plastic) and PET bottles? ～

- Plastic containers and packaging (waste plastic) are plastics and PET bottles which include the symbols shown at right as specified in the Container and Packaging Recycling Law.

～ Putting out PET bottles ～

Remove the cap. → Remove the label. → Rinse in water.

～ Putting out plastic containers and packaging (waste plastic) ～

If any food or drink leftovers remain in the plastic containers and packaging, **lightly rinse** them in left over water from dishwashing before putting them out.

* If rinsing does not make the items clean, put them out on the same day as combustible waste.

Please make sure you do this.

～ Are some items not "waste plastic" even though they are made of plastic? ～

Waste plastic refers to "plastic containers and packaging".

Some items cannot be recycled, even though they are made from plastic.

Some examples of such items which we often get asked about are listed here.

<Examples>

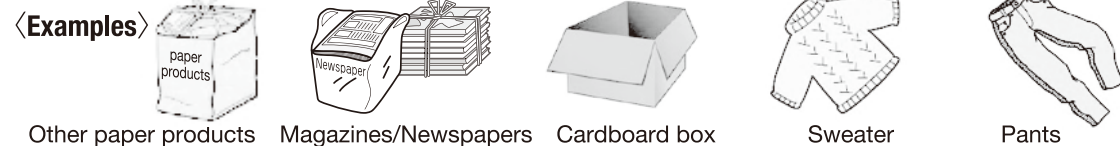

- Wash basins Incombustible waste
- Coat hangers Incombustible waste
- Soap containers Incombustible waste
- Tupperware Incombustible waste
- Buckets Incombustible waste
- Clothes cases Incombustible waste
- * Waste garbage exceeding 40 cm x 100 cm x 40 cm is regarded as large-sized waste.
- Toothbrushes Combustible waste
- Plastic spoons Combustible waste

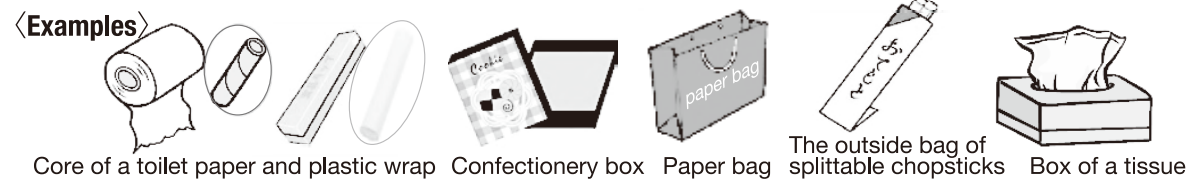

Separation support (Recyclable waste section)

～ Separation of Old paper, other paper products/Used clothes ～

What are Old paper/Used clothes?

What are Miscellaneous Paper (other paper products)?

Please put out your garbage (other paper products) on "old paper/used clothes" day.

Things that are hard to distinguish! Please put these out by combustible waste.

Something which can be put out on a day of "old paper/used clothes" is paper works and used clothes. There is something even paper items and cloth items can't put out on a day of "old paper/used clothes".

～ Separating cans and bottles ～

Items which can be put out on "Cans/Bottles" days include cans and bottles for **foodstuffs** and **beverages**. Other cans and bottles should be put out on "Incombustible waste" days.

<Examples>

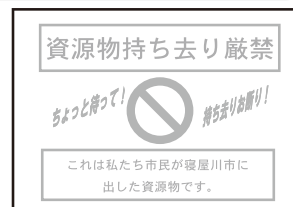

- Metal caps Incombustible waste
- Cosmetics bottles Incombustible waste
- Cups, Heat-proof glass Incombustible waste
- * Wine corks Combustible waste

Note

☆ Notification of intention to put out recyclable waste

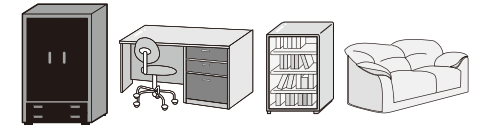

When you are putting out recyclable waste such as aluminum cans and old paper, it can be useful to attach a label saying "Recyclable waste for city collection" to help prevent the waste being carried off without authorization. Garbage trucks carry such **notification labels** with them, so if you attract the attention of the driver, you can obtain these labels for your use.

Separation support (Special waste section)

～ What is special waste? ～

- Waste garbage exceeding 40 cm x 100 cm x 40 cm is regarded as large-sized waste. (Drawers, Beds, Cupboards, etc.)
- If you have a lot of special waste to put out at once, such as when moving house. Such waste is treated as "special waste" and will incur a fee or removal.

☆ Methods of handling special waste ☆

Getting someone to come to your house to collect

Collection/disposal fee: **¥270/10 kg**

Reception hours:
8:30 a.m. - 5:00 p.m.

☎868-5374 (reservations required)

* You or someone else must be present. Collectors may not come inside the building.

Taking directly to the Clean Center yourself

Disposal fee: **¥130/10 kg**

Reception hours: 9:00 a.m. - 4:00 p.m.
(no reservations required)

(Caution)
You will be required to show evidence (such as a license or insurance form) that you are a resident of Neyagawa City. (Limited to waste generated by households.)

～ Recyclable electric appliances ～

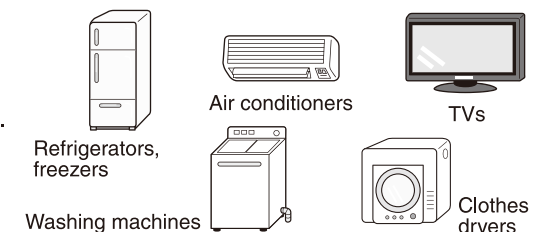

<Types of item>

Refrigerators, Freezers, Air conditioners, TVs, Washing machines, Clothes dryers

The above six types of item are treated as "special waste".

* Please purchase recycling coupons at the post office beforehand.

* Separate shipping and collection charges will be required.

～ This is also "special waste" ～

Some types of waste may be treated as special waste even if they are not so large in size. Some examples of such items which we often get asked about are listed here.

○ Bicycles (Including parts)

Note that bicycles are always treated as special waste, regardless of whether they are for children or adults or are of some other size.

○ Portable gas range, Gas stoves

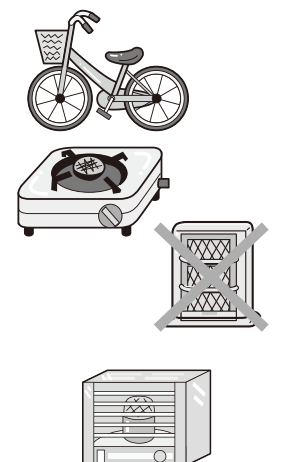

Items with igniters cannot be collected as incombustible waste. They are treated as special waste.

* Stoves which do not include igniters should be put out as incombustible waste.

○ Kerosene stoves

Items with igniters can become crushed and ignite when they are compressed, and this can lead to fires, so such items are treated as special waste.

* Electric stoves, charcoal heaters and halogen heaters are incombustible waste.
